GST Reconciliation Notes

Annual GST taxable value is approximately Rs. 118.00 lakh (Rs. 1.18 crore). This is intentionally close to, but not identical with, bank operating receipts of Rs. 124.40 lakh. The difference reflects billing-to-cash timing, implementation milestones, and small classification timing effects appropriate for a 12-month-old healthcare AI company.

Compliance profile: filings are predominantly timely. One early-stage return is treated as a near-due filing in the synthetic ledger to avoid an unrealistically perfect first-year record. No invalid-registration signal is introduced.

Machine-readable evidence fields: GSTIN, legal name, trade name, tax period, taxable value, CGST, SGST, IGST, total tax liability, eligible ITC, net tax payable, filing date, filing status.
